

COMPARE YOUR EV CHARGING OPTIONS

PPL Electric Utilities offers two programs designed to support off-peak electric vehicle charging and help manage energy demand across the grid. Both programs encourage charging your electric vehicle during periods when demand on the electric grid is lower. Explore the options below to determine which program best aligns with your charging preferences and routine.

Program Details	Optimized EV Charging	EV Off-Peak Rewards Program
Best For	Residential customers with a participating Level 2 EV charger who prefer an automated charging experience.	Residential customers with a participating Level 2 EV charger who prefer to manage their own charging schedule. Participation is limited to 2,000 customers.
How It Works	Enroll once and allow the program to automatically schedule charging outside of high-demand periods while ensuring your vehicle is ready when needed. Participants may earn incentives for program participation.	Charge your EV during eligible off-peak periods. Participants who meet program requirements may earn incentives for charging during qualifying hours.
Peak Time (non-charging periods)	Summer (June 1-Aug. 31, weekdays and non-holidays): 4-7 p.m. Winter (Jan. 1-Feb. 28/29, weekdays and non-holidays): 6-9 a.m. and 6-8 p.m.	Summer (June 1-Aug. 31, weekdays): 2-6 p.m. Winter (Dec. 1-Feb. 28/29, weekdays): 4-8 p.m.
Your Role	The program manages charging automatically. Customers may override the schedule whenever needed.	Customers manage their own charging schedule and must ensure at least 80% of charging occurs during eligible off-peak hours.
Potential Incentive	Up to \$120 annually.	Up to \$60 annually.
